ABOUT US

Himalayiya University with its sound infrastructure and high principles of learning, well-built commercial and industry interface is a right platform for aspiring students. We are committed in developing a favorable and supple atmosphere so that students not only grow and expand their knowledge and skills but also grow as a responsible human being.

Himalayiya University is about 30 km from Dehradun city and is located in Fatehpur Tanda, Jeevanwala, Post- via Doiwala, Dehradun-248140. Hardwar and Rishikesh surround it on one side while Dehradun and Mussoorie on the other. It is just 15 minutes drive from Dehradun (Jolly Grant) Airport, Dehradun. The Himalayiya University campus spans over 10.5 acres with lush green environment. The University campus is surrounded by reserve forest to one side while other side there is a rivulet and agricultural fields making it an ideal place for pursuing studies.

The facilities at Himalayiya University have been circulated over well-designed and well-constructed blocks. The blocks are large, which allow students, managerial staffs as well as faculty member sufficient personal space. Each segment is well lit and well maintained.

Dehradun is already recognized throughout the world as an educational hub, which is now developing more rapidly in the field of education by embracing the national and the international principles of education.

VISION & MISSION

Our Vision:

To create an ecosystem where research and academic excellence is inbuilt in the day-to-day activities, and to make the university one of the finest in India.

Our Mission:

To create an empowered society of professionals with right mindset and skills, who are aware of their moral and social responsibilities and are always ready to contribute in the development of society, organization and nation.

To cater the needs of business, industry, government and other sectors through quality education, research, consultancy and other professional services matching with international and national standards.

Create congenial atmosphere for the students to innovate, research and channel their energy in pursuit of excellence.

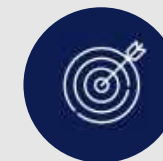

OUR OBJECTIVES

- To change (as and when required), improve and ensure the effectiveness of the education in preparing the students for successful careers.
- To engage competent faculty with professional skills and experience who has the ability to convey the knowledge to the students.
- To improve the written and verbal competencies as well as technical and analytical capabilities of the students.
- Take up the social responsibility towards the educational upliftment of the weaker sections of people as part of the University commitment.
- To make education and research more demand driven and relevant.
- To create congenial atmosphere for interdisciplinary research and open exchange of ideas.

- To prepare the students with relevant knowledge, skills, competence and creativity to face future challenges.
- To promote the University-Industry Interface for augmenting employment opportunities for the students and scholars.
- To make the teaching and research more demand driven and student-centric by incorporating the suggestions of students and organizational needs from time to time through a well-developed feedback mechanism.
- To evolve innovative methodologies to help the weak learners.
- To engage in programs and activities of community services aligning with the university mission.
- To initiate studies on Indian Himalayan Region (IHR) and its linkages with biodiversity, ecology, culture, customs, traditions, traditional knowledge and traditional practices.
